To our Junior University Family:

Would you like to play a special role for Junior University? A successful show requires more than talented performers and crew. The need for financial support from the community becomes vitally important as production costs rise.

Below are our support program levels. Take note of the premiums provided to our Sponsors. With *Stage Door Privilege* you and your family are invited in the back door before the front gate is opened! What a great idea for those who don't like long lines!

For the business person, the Director's and Producer's Circles provide Junior University tickets that can be given to their employees or customers.

Thank you for helping to increase the size of our family.
